

Now available. Our new 3" Camera Range. With a choice of Internal and External models.

Our new 3" range of cameras provides a choice of 4MP, 20FPS or 1080P 30FPS streaming. With drivers for custom install projects, this range of cameras are ideal for use within control systems. Cameras in the 3" range are ONVIF compliant and have a large selection of Intelligent Video surveillance features.

Features:

- 30m IR illumination
- 2.8-12mm lens
- IP66 Rated
- Two Way Audio support
- Internal RJ45
- PoE
- ONVIF Profile S supported
- Standard alarms: Motion/Audio
- IVS: Tripwire, Tripwire Semaphore, Perimeter, Advanced Motion, Object Counting, Tamper
- Deep CI Drivers
- SDDP*
- DI/DO
- SD Card recording
- Email Alerts
- Sense up+ for low light performance
- Alarm alerts to your control system
- 3 year warranty
- Internal RJ45
- View and control using LILINViewer**
- Email alert with image from your control system*

*Only available on selected models. **Free mobile App.

Versions Available:

External Models

- MR6422AX: 1080P, 30FPS
- MR6442AX: 4MP, 20FPS

Internal Models

- MR2922AX: 1080P, 30FPS
- MR2942AX: 4MP, 20FPS

IVS Features

LILIN's Intelligent Video Surveillance (IVS) iMEGAPRO cameras feature on board analytics that provide intelligent solutions, automatically analyzing captured video. IVS can detect, classify and count the behaviour of objects within a specified scene to improve parameter security or improve security within certain areas.

Tamper Detection

An alarm is triggered when someone attempts to cover, vandalise or move the camera.

Object Counting

Count objects in and out over a designated line.

Tripwire

Draw up to 8 lines or rectangles, movement across these lines will trigger an alarm.

Semaphore

Create alarms only when a tripwire line is crossed and a specific colour is shown in selected area.

Advance Motion

Results in lowered false alarms against standard motion detection.

Our professional grade equipment delivers remarkable 1080p - 4K video quality for the high-end residential market; backed by 3 year warranties and UK support.
